BA (Hons.) PSYCHOLOGY

PROGRAMME OUTCOMES

PO1: The course offers good progression of knowledge of concepts in the field of psychology.

PO2: Enable the learner to become familiar with the major theories of basic psychological approaches and process, personality, sign and symptoms of abnormality, assessment of behavior and thoughts of the individual with the help of various tests and experiments.

PO3: Help students to learn the phenomena of social aspects about a community or society.

PO4: Enrich their knowledge about how the development of each individual takes place in different spheres of his/ her life.

PO5: Inculcating the knowledge provided to them via classroom lectures, workshops or seminars and applying the same in real life settings.

PO6: Practicing effective listening skills in order to understand narratives of pain and social suffering enabling them to become more aware about themselves and others.

PO7: Development of skills related for competence in clinical work with a focus on empathetic understanding.

PO8: Enhancement of knowledge related to self through the utilization of Indian Psychological concepts for personal growth.

PO9: Learning skills related to research and analysis of data in a scientific manner using SPSS.

INTRODUCTION TO PSYCHOLOGY PSY-101

COURSE OUTCOMES

- 1. *Define* basic concepts such as behaviour, mental processes and experiences.
- 2. Describe the fields, perspectives, and methods in psychology.
- 3. Explain the processes related to areas of perception, memory and learning.
- 4. Demonstrate mnemonic strategies for memory enhancement.
- 5. Practice mnemonics for better memory and recall.

STATISTICS IN PSYCHOLOGY

PSY-102

COURSE OUTCOMES

- 1. Define and describe descriptive and inferential statistics.
- 2. Explain concepts related to normal distribution.
- 3. Demonstrate graphical representation of data.
- 4. Assess and formulate various measures of central tendency and variability.
- 5. Practice computation of correlation coefficients.
- 6. Follow the concept of random sampling distribution.
- 7. Display skills for statical analysis of psychological data

PSYCHOLOGY OF INDIVIDUAL DIFFERENCES PSY 201

COURSE OUTCOMES

- 1. Define and describe the the role of heredity in determining behaviour of individuals.
- 2. Define concepts of intelligence and personality.
- 3. Explain how heredity environment interaction influence personality and intelligence.
- 4. Formulate IQ from mental age of an individual.
- 5. *Display* an informed perspective with respect to Eastern and Western conceptualization of self and personality.

COGNITIVE PSYCHOLOGY PSY 202

COURSE OUTCOMES

- 1. Define and describe meaning and approaches of cognitive psychology.
- 2. Explain the processes involved in attention, memory, thinking and perception
- 3. Practice steps involved in problem solving and creativity.
- 4. Demonstrate application of cognitive psychology to everyday life.

LIFESPAN DEVELOPMENT PSY 301

- 1. Define and describe concepts related to human development.
- 2. *Explain* changes involved in physical, social, emotional and cognitive development across individual lifespan.
- 3. Demonstrate understanding of adolescent and geriatric issues.

- 4. Follow a developmental perspective to ageing and related issues and concerns.
- 5. Display a sensitive approach towards problems related to adolescence.

SOCIAL PSYCHOLOGY PSY 302

COURSE OUTCOMES

- 1. Define social psychology and related terminology.
- 2. *Describe* the relationship between the person and the situation, and it's influence on attitudes, prejudice, aggression, pro social behaviour, and interpersonal relationships.
- 3. *Describe* the dynamics of group behaviour in areas of social influence such as performance, decision making, cooperation, intergroup relations, and conflict and cooperation.
- 4. Identify and evaluate the current historical research, and research methods of social psychology, including ethical considerations.
- 5. Apply social psychological principles to real world issues.

PSYCHOLOGY OF PERSONALITY PSY 303

COURSE OUTCOMES

- 1. Define and describe approaches to personality
- 2. Explain differences across different psychological perspectives on personality.
- 3. *Demonstrate* an informed view of the assumptions underlying Eastern and Western conceptualisation of self.
- 4. Follow a context sensitive approach towards concept of self.
- 5. Display an informed view of personality and self with respect to Western and Eastern theories on self.

SYSTEMS IN PSYCHOLOGY PSY 401

- 1. *Describe* the historical events and scientific discoveries that have influenced contemporary psychology.
- 2. Explain the major systems of psychology in the light of assumptions about human nature.
- 3. *Demonstrate* understanding of the philosophical ideas from which the discipline of psychology arose.

4. Display significant figures within each system and describe their contributions.

PSYCHOLOGICAL RESEARCH PSY 402

COURSE OUTCOMES

- 1. Define and describe research and its goals.
- 2. Explain paradigms of research and their ontological and epistemological assumptions.
- 3. *Demonstrate* skills for formulation of research questions with respect to disciplinary and social relevance.
- 4. Formulate research problems and testable hypothesis.
- 5. Practice ethical principles involved in research.
- 6. Follow statistical techniques involved in research.
- 7. Modify research questions to suit the disciplinary and societal needs.
- 8. Display skills for using SPSS for statistical analysis.

APPROACHES TO PERSONALITY PSY 403

COURSE OUTCOMES

- 1. Define and describe various approaches to personality in psychology.
- 2. Explain the key differences between approaches to personality.
- 3. Demonstrate understanding of key concepts in each approach to psychology.
- 4. Follow the ideas of major thinkers of personality theories in psychology.
- 5. Display awareness about important differences and similarities across different approaches to personality.

PSYCHOLOGICAL TESTING AND ASSESSMENT PSY 501

- 1. Describe the need for psychological assessment and testing.
- 2. Explain errors of measurement.
- 3. Demonstrate an understanding of types of psychological tests.
- 4. Follow the steps involved in test construction.
- 5. Display an understanding of need based assessments.

ABNORMAL PSYCHOLOGY PSY 502

COURSE OUTCOMES

- 1. Define and describe concepts of normality and abnormality.
- 2. Explain causes of abnormality.
- 3. Demonstrate models of abnormality
- 4. Assess signs and symptoms of psychological disorders.
- 5. Follow the classification of disorders ICD 10 and DSM 5.

EFFECTIVE COMMUNICATION PSY 503

COURSE OUTCOMES

- 1. Describe the value of communication in life.
- 2. Explain important aspects involved in communication.
- 3. Demonstrate an understanding of verbal and non-verbal communication.
- 4. Practice communication skills for effective communication.
- 5. Follow verbal and non verbal communication skills.
- 6. Display skills involved in effective communication.

BIOPSYCHOLOGY PSY 504

COURSE OUTCOMES

- 1. Define and describe biological bases of experience and behaviour.
- 2. Explain the structure and functions of nervous system with respect to human behaviour.
- 3. Demonstrate understanding of endocrine system in relation to human behaviour.
- 4. Display understanding of human behaviour as a function of mind-body relationship.

ASSESSMENT OF PERSONALITY & MENTAL ABILITY PSY 601

- 1. Define and describe ethical issues in psychological testing.
- 2. Explain various types of tests and their relevance in measurement of human attributes.
- 3. Demonstrate understanding of Personality and intelligence assessment.
- 4. Assess and formulate goals/need for testing.
- 5. Practice skills required for testing of psychological attributes.
- 6. Display an ethical and context sensitive understanding of testing and assessment.

COUNSELLING PSYCHOLOGY PSY 602

COURSE OUTCOMES

- 1. Define and describe counselling process.
- 2. Explain the goals and ethical principles of counselling.
- 3. Demonstrate techniques of counselling.
- 4. Assess and formulate counselling stages and goals.
- 5. Practice effective listening skills.
- 6. Follow the methods and techniques of counselling.
- 7. Modify counselling goals according to the needs of the person being counselled.
- 8. Display context sensitive and socially responsible understanding of counselling.

HEALTH PSYCHOLOGY PSY 603

COURSE OUTCOMES

- 1. Define and describe mind body relationship in the context of health.
- 2. Explain the biopsychosocial model of health.
- 3. Demonstrate understanding of healthy behaviours.
- 4. Follow theories of health behaviour and their implications.
- 5. Display an understanding of the relationship between health and well being.

POSITIVE PSYCHOLOGY PSY 604

COURSE OUTCOMES

1. Define and describe the need and relevance of positive psychology.

- 2. *Explain* the difference between positive emotional states and cognitions with reference to health and well being.
- 3. Follow the application of positive psychology in various fields.
- 4. Display an understanding of the linkage between thoughts, emotions and health.

BA (Hons.) PSYCHOLOGY

PROGRAMME OUTCOMES

PO1: The course offers good progression of knowledge of concepts in the field of psychology.

PO2: Enable the learner to become familiar with the major theories of basic psychological approaches and process, personality, sign and symptoms of abnormality, assessment of behavior and thoughts of the individual with the help of various tests and experiments.

PO3: Help students to learn the phenomena of social aspects about a community or society.

PO4: Enrich their knowledge about how the development of each individual takes place in different spheres of his/ her life.

PO5: Inculcating the knowledge provided to them via classroom lectures, workshops or seminars and applying the same in real life settings.

PO6: Practicing effective listening skills in order to understand narratives of pain and social suffering enabling them to become more aware about themselves and others.

PO7: Development of skills related for competence in clinical work with a focus on empathetic understanding.

PO8: Enhancement of knowledge related to self through the utilization of Indian Psychological concepts for personal growth.

PO9: Learning skills related to research and analysis of data in a scientific manner using SPSS.

CHHATRAPATI SHAHU JI MAHARAJ UNIVERSITY, KANPUR

(C.S.J.M. University, Kanpur) Ordinance B.A Psychology (Honours)

The objective of every programme at Higher Education Institute is to prepare their students for the society at large. The CSJMU University visualises all its programmes in the best interest of their students and in this efforts it offers new Under-Graduate courses with new vision; psychology is one of them.

Psychology is broadly study and interesting subject and it's very imperative in day to day life as psychology helps and prepares students in making an informed decision regarding the goals that they wish to pursue in future education and life, at large.

1. Aims of the Programme:

The program of BA in Psychology will help students of Psychology to learn basic concepts of Psychology in different areas like learning, memory, intelligence, child development, social psychology, assessment, abnormality, personality etc. It will enable them learn the theories and mechanism for explaining human thought and behaviour and enhance their knowledge on practical aspects as well. They will be able to learn the applications of different methods, theories and concepts studied in Psychology.

The course has been developed keeping in mind the current realities of the discipline including the socio-cultural context. The reach to different fields of psychology has been made through incorporating different papers viz. Social Psychology, Developmental Psychology, Systems in Psychology, Understanding Psychological Disorders, Counselling Psychology, etc. To face the challenges of the modern life, skills like Stress Management, Effective Leadership and Communication Competence have been included.

2. Programme Outcome:

- a) The course offers good progression where individuals are seeking to attain their higher studies in Psychology.
- b) Enable the learner to become familiar with the major theories of basic psychological process, personality, sign and symptoms of abnormality, assessment of behavior and thoughts of the individual with the help of various tests and experiments.
- c) Help students to learn the phenomena of social aspects about a community or society.
- d) Enrich their knowledge about how the development of each individual takes place in different spheres of his/ her life.
- e) Inculcating the knowledge provided to them via classroom lectures, workshops or seminars and applying the same in real life settings.

- f) Practicing effective listening skills in order to understand narratives of pain and social suffering enabling them to become more aware about themselves and others.
- g) Development of skills related for competence in clinical work with a focus on empathetic understanding.
- h) Enhancement of knowledge related to self through the utilisation of Indian Psychological concepts for personal growth.
- i) Learning skills related to research and analysis of data in a scientific manner using SPSS.

3. Programme Objectives

PO1: The course offers good progression of knowledge of concepts in the field of psychology.

PO2: Enable the learner to become familiar with the major theories of basic psychological approaches and process, personality, sign and symptoms of abnormality, assessment of behavior and thoughts of the individual with the help of various tests and experiments.

PO3: Help students to learn the phenomena of social aspects about a community or society.

PO4: Enrich their knowledge about how the development of each individual takes place in different spheres of his/ her life.

PO5: Inculcating the knowledge provided to them via classroom lectures, workshops or seminars and applying the same in real life settings.

PO6: Practicing effective listening skills in order to understand narratives of pain and social suffering enabling them to become more aware about themselves and others.

PO7: Development of skills related for competence in clinical work with a focus on empathetic understanding.

PO8: Enhancement of knowledge related to self through the utilization of Indian Psychological concepts for personal growth.

PO9: Learning skills related to research and analysis of data in a scientific manner using SPSS.

- **4.** The degree of B.A. Psychology (Honours) shall be pursued in the Department of LLLE in the faculty of Advance Social Science Studies.
- **5.** Total intake of students in the course will be 30. Reservation will be as per the rules of U.P. Government/University
- **6.** The students shall be selected for the B.A. Psychology (Honours) Course through an entrance test/merit/as per University policy in this behalf

7. Eligibility of Admission:

The eligibility for entry in B. A. Psychology (Honours) programme shall be 10+2 or its equivalent in any stream with minimum. 40% marks in class XII as per university policy.

- **8.** The B. A. Psychology (Honours) is a full time course. It shall be in three parts viz. Part I, II and Part III spread over six semesters in three academic years.
- English/Hindi shall be the medium of instruction in the admission test as well as in the University examination. The examination shall be after the end of each semester.
- 10. A candidate who has less than 75% attendance in theory will not be allowed to appear in the examination. However, the Vice-Chancellor on the recommendation of head of the department may condone shortage of attendance up to 15% on grounds of ill health or some other equally genuine reasons.
- 11. Ordinarily 50% Paper setters/examiners shall be internal and 50% external

12. Curriculum:

- a) The curriculum includes classroom lectures, tutorials, and project work.
- b) The curriculum emphasizes on development of students' theoretical knowledge, research skills, communicative skills and counselling skills.
- c) The program includes skill development (especially soft and interpersonal skills) through Interaction with experts/Skill Knowledge Providers (SKPs)/ Experts of SkillDevelopment Councils (SSCs)/Institutes.
- d) The campus also offers opportunities of extra-curricular activities like NSS, Sports Clubs, Eco club, Social Work, and Cultural Events etc.

13. Fee Structure:

As per University regulations from time to time.

14. Completion of Course:

As per University regulations.

15. Examination Scheme:

The B.A Psychology (Hons) programme shall follow the semester pattern of examination.

16. Continuous Internal Assessment:

a. One fourth of the maximum marks in each course, will be reserved for internal assessment. Written examination of each course will carry 75 marks and internal assessment will carry 25 marks. (i.e. 75 marks external & 25 internal assessment).

b. Marks for internal assessment will be awarded on the basis of one assignment carrying 10 marks, one presentation on the assignment carrying 10 marks and 5 marks for Attendance. Marks obtained in each of the assignment, presentation, attendance will be announced to the students. Internal Assessment will only be done once. Marks once obtained in internal assessment in any course will be final and will not be changed

For continuous internal assessment (CIA) in each paper, the following method will be followed:

Scheme of Continuous Internal Assessment (CIA)			
S. No.	Components	Marks	
1.	Assignment (Written Submission)	10 marks	
2.	Presentation (Oral & Written Presentation)	10 marks	
3.	Attendance*	05 marks	
	Total CIA Marks	25 marks	

^{*} Note: As far as the marks of attendance for internal assessment is concerned, below 60% = 0 marks; From 60% to below 70% = 1 mark; From 70% to below 75% = 2 marks; From 75% to below 80% = 3 marks; From 80% to below 85% = 4 marks; and 85% and above = 5 marks shall be awarded.

For continuous internal assessment (CIA), the schedule of conduct of oral presentation sessions and/or submission of written assignment will be official/formally announced among the students well in advance (at least one month before) by each respective faculty member. After completion of internal assessment, the related records including award lists should be submitted in the Department at least two weeks before the commencement of the end semester examinations.

17. Course Structure:

To meet the stated aims and objectives, as stated above, this programme besides having strong foundation in psychology also has integrated a number of interdisciplinary and ability enhancing courses which provide the learner opportunities to explore subjects beyond the discipline of Psychology. The programme is of 144 credits with a mix of five types of courses: fourteen core courses, eight elective courses (four Discipline Specific Electives and four interdisciplinary), a research project and four ability enhancement courses (two ability enhancing compulsory courses and two skill enhancing courses). While each of the AECs and SECs is of 3 credit weightage, all other courses of this programme are 6 credit courses. The AECs and SECs will be offered from the pool of courses offered by the university. Students may also do these courses from the SWAYAM portal. Thus, there are a total of 14 Core Courses, which you will study during the 6 semesters of your three-years Honours program in Psychology. Each core course is worth six credits. Of the 6 credits, theory is of 4 credits and tutorial/ Practical is of 2 credits. The following Table gives you a clearer picture of the distribution of core courses across the six semesters. Semester-wise Distribution of Course:

Sem	Major courses 6 credits	Discipline Specific Courses 6 credits	Interdisciplina ry courses 6 credits	Ability Enhancement Courses 3 credits*	Skill Enhancement Courses 3 credits*	Credits
1st	PSY-101Introduction to Psychology(Theory + Practical) PSY-102Statistics in Psychology		As per courses offered in the University	As per courses offered in the University	As per courses offered in the University	24
2 _{nd}	(Theory + Tutorial) PSY-201Psychology of Individual Differences(Theory + practical) PSY-202Cognitive Psychology (Theory + Tutorial)		As per courses offered in the University	As per courses offered in the University	As per courses offered in the University	24
3rd	(Theory + practical) PSY-301Life Span Development (Theory + practical) PSY-302Social Psychology (Theory + practical) PSY-303 Psychology of Personality (Theory + practical)		As per courses offered in the University			24
4th	PSY-401System in Psychology (Theory + Tutorial) PSY-402Psychological Research (Theory + practical) PSY-403 Approaches to Personality (Theory + practical)		As per courses offered in the University			24
5th	PSY-501Psychological testing and Assessment (Theory + practical) PSY-502Abnormal Psychology (Theory + practical)	PSY-503 Effective Communication PSY-504 Biopsychology				24
6th	PSY-601Assessment of personality and Mental Ability (Theory + practical) PSY-602 Counselling Psychology (Theory + practical)	PSY-603 Health Psychology PSY-604 Positive Psychology				24

^{• *} From the courses available in the University and also from the MOOC platforms such as the SWAYAM Portal)

18. Passing Criterion

Greater than or equal to 36% in each individual paper with minimum 40% marks in aggregate in each of the semester examinations will be the passing criterion.

- a. A candidate who fails to secure minimum passing of at least 36% in a course will be allowed to give a back paper of that course in the semester (in which that particular course is offered) of the next academic session. Students with a maximum of 1 back paper will be promoted to the next semester. If a student fails to secure minimum pass marks in two or more papers at any time, such student will not be promoted to the next semester. Such a student will be allowed to repeat the entire semester as a fresh student.
- b. A candidate who fails in odd semester will pay only semester Examination Fee to reappear in the same examination, no Tuition Fee will be payable. A candidate who fails in even semester will pay Annual fee in addition to the Examination Fee to reappear in the same examination, no Tuition Fee will be payable.
- c. Any discrepancy will be resolved as per the University norms.

19. Faculty Requirement:

1. Faculty requirement will be in proportion of 1: 20 (Faculty: Student) i.e. for 40 intakes 2 teachers will be required.

20. Infrastructure:

- a. One lecture room per class enough to seat 40 students with adequate lighting and air facility.
- b. The lecture rooms must be equipped with whiteboard and audio-visual teaching equipments.
- c. At least one computer Lab with computer sets commensurate with the number of students.
- d. A library with adequate number of course and reference books, journals, magazines (including e-books and e-journals) relating to commerce and industry and business newspapers. The library shall have a reading room, computers with network connectivity and photocopy machines.
- e. The campus shall have free wi-fi facility for the students.
- f. There shall be indoor and outdoor games facilities for the students.
- 21. The candidates shall be declared passed and be eligible for the award of degree in B.A.(Hon) Psychology, provided they obtain the following gradation of marks: I. 60% and above in aggregate of all the papers--1st Division
 - II. 45% and above in aggregate but less than 60% of all the papers--2nd Division
 - III. 40% and above but below 45%--3rd Division

Course Structure B.A Psychology (Honours)

The schedule of papers prescribed for various semesters and marks shall be as follows:

	Distribution of Papers and Marks					
	Semester-I		r		T	
Course code	Paper Title	Credits	CIA	End Sem. Exam	Total	
PSY 101	Basic Psychological Processes (Theory + practical)	4 + 2 = 6	25	75	100	
PSY 102	Statistics in Psychology (Theory + Tutorial)	6	25	75	100	
	Practical			100	100	
	Interdisciplinary courses (As per courses offered in the University)	6	25	75	100	
	Ability Enhancement Courses (As per courses offered in the University)	3		50	50	
	Skill Enhancement Courses (As per courses offered in the University)	3		50	50	
	Maximum Marks of I semester	24	75	425	500

SYLLABI OF COURSES

B.A. Psychology (Honours)

LEVEL : SEMESTER-1
PAPER CODE : PSY-101

TITLE OF PAPER : INTRODUCTION TO PSYCHOLOGY

MARKS: 75

COURSE OUTCOMES

- 1. Define basic concepts such as behaviour, mental processes and experiences.
- 2. Describe the fields, perspectives, and methods in psychology.
- 3. Explain the processes related to areas of perception, memory and learning.
- 4. Demonstrate mnemonic strategies for memory enhancement.
- 5. Practice mnemonics for better memory and recall.

UNIT I: INTRODUCTION:

What is psychology? Perspectives on behavior; Methods of psychology; Subfields of psychology; Psychology in modern India. Introduction to Biopsychology: Neuron type and functions.

UNIT II: PERCEPTION:

Perceptual processing, Role of attention in perception, Perceptual organization, Perceptual sets, Perceptual constancies, Depth perception, Illusions.

UNIT III: LEARNING AND MOTIVATION:

Principles and applications of Classical conditioning, Operant conditioning, and Observational learning; Cognitive influences on learning; Perspectives on motivation, Types of motivation, Motivational conflicts.

UNIT IV: MEMORY:

Models of memory: Levels of processing, Parallel distributed processing, Information processing; Forgetting; Improving memory.

- Singh, A. k. (2011). Uchhtar Samanya Manovigyan. New Delhi: Motilal Banarsidas.

Level: SEMESTER-1

Paper Code: PSY-102

TITLE OF PAPER : STATISTICS IN PSYCHOLOGY

MARKS: 75

Course Objective:

- 3. Define and describe descriptive and inferential statistics.
- 4. Explain concepts related to normal distribution.
- 5. Demonstrate graphical representation of data.
- 4. Assess and formulate various measures of central tendency and variability.
- 5. Practice computation of correlation coefficients.
- 6. Follow the concept of random sampling distribution.
- 7. Display skills for statical analysis of psychological data

UNIT I: INTRODUCTION TO STATISTICS:

Introduction to Statistics and Measurement: Descriptive and Inferential Statistics, and Levels of Measurement (Nominal, Ordinal, Interval and Ratio).

Frequency Distribution: Graphical Representation of Data (Histogram, Bar -Diagram, Frequency Polygon).

UNIT II: MEASURES OF CENTRAL TENDENCY:

Concept of Central Tendency; Measures of Central Tendency: Mean, Median and Mode. Measures of Variability: Range, Quartile Deviation, Average Deviation, Standard Deviation

UNIT III: CORRELATION:

The Meaning of Correlation; Historical Perspective; Correlation: A Matter of Direction; The Coefficient of Correlation; Calculating Pearson's Correlation Coefficient; Spearman's Rank-Order Correlation Coefficient.

UNIT IV: BASICS CONCEPTS OF STATISTICS:

Normal Distribution and Concept of Probability, Skewness and Kurtosis. Level of Significance, Types of Hypothesis, Type I and Type II error. Introduction to Parametric and Non- Parametric Statistics.

- Garrett, H. C. (1981). Statistics in Psychology and Education. New York: Longmans, Green &Co.
- Garret, H. C. (2003). Manovigyan aur Shikha mein Sankhyiki.

- Mangal, S.K. (2012). Statistics in Psychology and Education (2nd Ed.). New Delhi: PHI learning Pvt. Ltd.

Practical:

Two reports to be written on the experiments conducted with the objectives of understanding and conduction of Experiments. Experiments to be done from the following: Perception; Learning, Motivation, Memory such as:

- Maze Learning
- Muller Lyer Illusion Test
- Retroactive Inhibition
- Paired Associates- Verbal Learning
- Locus of Control (Rotters)

Level: SEMESTER-2 Paper Code: PSY-201

TITLE OF PAPER : PSYCHOLOGY OF INDIVIDUAL DIFFERENCES

MARKS: 75

Course Outcomes:

- 1. Define and describe the the role of heredity in determining behaviour of individuals.
- 2. Define concepts of intelligence and personality.
- 3. Explain how heredity environment interaction influence personality and intelligence.
- 4. Formulate IQ from mental age of an individual.
- 5. *Display* an informed perspective with respect to Eastern and Western conceptualization of self and personality.

UNIT-I: HEREDITARY AND ENVIRONMENT:

Principles of Hereditary Transmission: Chromosomes, Genes, Meiosis and Zygote Formation. Estimation of contribution of Gene and Environment Chromosomal and Genetic Abnormalities: Causes, Sex linked Abnormalities, Autosomal Abnormalities **UNIT II: INTELLIGENCE:**

Intelligence: Concept, Intelligent Quotient (IQ). Individual Differences in Intelligence: Developmental Delay, Giftedness. Nature and Nurture Controversy.

Theories of Intelligence: Spearman, Thurstone, Gardner.

UNIT III: PERSONALITY:

Concept and Nature of Personality. Determinants of Personality: Biological and Family Determinants. Typology of Personality: Sheldon and Kretschmer.

Perspectives of Personality: Psychodynamic and Phenomenological.

UNIT 3: INDIAN APPROACH:

Self and identity in Indian thought. Enhancing individual's potential: Enhancing cognitive potential, Self- regulation and self enhancement.

Level: SEMESTER-2

Paper Code: PSY-202

TITLE OF PAPER : COGNITIVE PSYCHOLOGY

MARKS: 75

Course Objective: COURSE OUTCOMES

- 6. Define and describe meaning and approaches of cognitive psychology.
- 7. Explain the processes involved in attention, memory, thinking and perception
- 3. *Practice* steps involved in problem solving and creativity.
- 4. Demonstrate application of cognitive psychology to everyday life.

UNIT-I: COGNITIVE PSYCHOLOGY:

Nature, Historical Development and Current Status

Approaches; Experiential, Cognitive Science, Neuroscience and Cognitive Neuroscience

UNIT-II: ATTENTION AND PERCEPTION:

Attention: Nature, Divided Attention, Selective Attention, Theories of Selective Attention.

Perception: Nature, Figure and Ground, Perceptual Constancies; Theories of Pattern Recognition: Bottom-Up, Top-Down Processing; Template Matching, Prototype Models, Distinctive Feature Models, Psychophysics

UNIT-III: MEMORY:

Memory: Nature and Processes, Models of Memory: Atkinson-Shiffrin Model, Level of Processing Approach, Tulving Model, PDP Approach, Sensory Memory, Short Term Memory and Working Memory, Autographical and Flashbulb Memory

Memory of General Knowledge: Structure of Semantic Memory, Schema & Meta Cognition and Meta Memory

UNIT-IV: THINKING:

Thinking: Concept and Types; Problem Solving: Nature, Approaches, Factors Influencing Problem Solving, Concept: Nature, Concept Formation

Creativity, Reasoning, Types of Reasoning, Decision Making, Process of Decision Making, Errors in Decision Making.

Books Recommended:

- Morgan, C.T. (1961). An Introduction to Psychology, Tata McGraw and Hill.
- Sternberg, R. (2000). Psychology: In Search of the Human Mind. Wadsworth Publishing.
- Singh, A.K. (2006). Cognitive Psychology. Motilal Banarasidas, Varanasi.
- Singh, A. K., Singh, A. P., Singh, S. N., (2019). Cognitive Psychology. Agra: HP Bhargav Publication

Practical:

Any two practical from the following; Intelligence, personality, Attention, Problem Solving, such as:

- Seguine Form Board (SFB)
- Multiple Assessment of Personality Test (MAPs)
- Eysenck Series of Digit Span Test (ESDST)
- Problem Solving Test

LEVEL : SEMESTER-3

PAPER CODE : PSY-301

TITLE OF PAPER : LIFE SPAN DEVELOPMENT

MARKS: 75

COURSE OUTCOMES

8. Define and describe concepts related to human development.

- 9. *Explain* changes involved in physical, social, emotional and cognitive development across individual lifespan.
- 10. *Demonstrate* understanding of adolescent and geriatric issues.
- 4. Follow a developmental perspective to ageing and related issues and concerns.
- 5. Display a sensitive approach towards problems related to adolescence.

UNIT I: THEORETICAL PERSPECTIVE:

Introduction: Concept, Principles, Stages of development, difference between growth and development.

Determinants: Biological and Social.

Developmental Perspective: Freud and Erikson.

Method: Longitudinal, Cross Sectional, Observational Method.

UNIT II: BIOLOGICAL, PHYSICAL, MOTOR AND COGNITIVE DEVELOPMENT:

Biological Development: Zygote, embryo, fetus.

Physical Development: concept of maturation and growth, Development in childhood and Adolescence.

Motor Development: Loco motor Development, Milestones.

Cognitive Development: Concept and Approaches: Piaget and Vygotsky.

UNIT III: LANGUAGE, SOCIAL, EMOTIONAL AND MORAL DEVELOPMENT: Language

Development: Stages and Determinant.

Emotional Development: Primary Emotion, Development from Infancy to Adulthood: Emotional Intelligence.

Social Development: Stages; Factors Affecting Social Development, Social Intelligence.

Moral Development: Concept of Morality Kohlberg's Theory, Spiritual Intelligence.

UNIT IV: ADOLESCENT AND GERIATRIC ISSUES: Adolescent

and Youth Problem.

Developmental Concerns during Adulthood: Marriage, Family and Work, Mid Life Crisis. Aging Problems: Physical, Cognitive and Emotional.

LEVEL : SEMESTER-3

PAPER CODE : PSY-302

TITLE OF PAPER : SOCIAL PSYCHOLOGY

MARKS: 75

COURSE OUTCOMES

- 11. Define social psychology and related terminology.
- 12. *Describe* the relationship between the person and the situation, and it's influence on attitudes, prejudice, aggression, pro social behaviour, and interpersonal relationships.
- 3. *Describe* the dynamics of group behaviour in areas of social influence such as performance, decision making, cooperation, intergroup relations, and conflict and cooperation.
- 4. Identify and evaluate the current historical research, and research methods of social psychology, including ethical considerations.
- 5. Apply social psychological principles to real world issues.

UNIT 1: INTRODUCTION:

Nature and Scope; Methods of Studying Social Behaviour: Observation, Experimental, Field Study, Survey, Sociometry and Cross-cultural.

Socialization: Agents and Mechanisms, Socialization and Deviation.

Perceiving Others: Forming Impressions; Role of Non-verbal Cues, Group stereotypes, Central Traits; Primary and Recency Effects; Models of Information.

UNIT 2: UNDERSTANDING AND EVALUATING THE SOCIAL WORLD:

Social cognition, Social perception, Attitudes, Attitude-behaviour link; Strategies for attitude change.

UNIT 3: SOCIAL INTERACTION AND INFLUENCE:

Interpersonal attraction, Pro-Social Behaviour, Aggression, Social Influence.

UNIT 4: GROUP DYNAMICS AND INTER-GROUP RELATIONS:

Nature of groups, Consequences of belonging (performance, decision making, cooperation and conflict), Nature of intergroup relations (prejudice, inter-group conflict, intervention techniques)

LEVEL : SEMESTER-3

PAPER CODE : PSY-303

TITLE OF PAPER : PSYCHOLOGY OF PERSONALITY

MARKS: 75

COURSE OUTCOMES

- 13. Define and describe approaches to personality
- 14. Explain differences across different psychological perspectives on personality.
- 15. *Demonstrate* an informed view of the assumptions underlying Eastern and Western conceptualisation of self.
- 4. Follow a context sensitive approach towards concept of self.
- 5. Display an informed view of personality and self with respect to Western and Eastern theories on self.

UNIT I: CONCEPT AND HISTORICAL PERSPECTIVE:

Concept, Popular and Scientific Views, Historical Perspective: Traits vs. Types, Type-Sheldon, Kretchmer, Traits Approach: Cattell's and Allport's theory.

UNIT II: DETERMINANTS OF PERSONALITY:

Genetic and Constitutional, Physical Environment, Family Determinants and Molding Techniques, Socio Cultural Factors, School and Media.

UNIT III: SELF-CONCEPT:

Nature and Components, Kinds of Self Concept, Development of Self Concept: Patterns, SelfSchema and stability of Self.

UNIT IV: INDIAN PERSPECTIVES ON SELF:

Satva, Rajas, Tamas (SRT) Theory, Panchokosh as: From gross to subtle, Self in Bhagwad Gita: Stithpragya, Awakenedand Enlightened Man-Buddha.

Books Recommended:

- Hall, C.S. and Lindzey, C.T. (1985). Theories of Personality. 3rdEdition. Wile EasternLtd.

- Tripathi, R.B. and Singh, R.N. (1999). Vyaktitva ka Manovigyan. Varanasi: Ganga Saran and Grandsons.

Practical:

Any two practical from the following given below:

- Schutte Emotional Intelligence Scale
- Gender Stereotypes (Bem Sex Role Inventory/ Adjective Checklist)
- Moral Judgement
- Mohsin Significant Other Attitude Scale
- Aggressive Behaviour Scale
- General Self Efficacy Scale

LEVEL : SEMESTER-4

PAPER CODE : PSY-401

TITLE OF PAPER : SYSTEM IN PSYCHOLOGY

MARKS: 75

COURSE OUTCOMES

16. *Describe* the historical events and scientific discoveries that have influenced contemporary psychology.

- 17. Explain the major systems of psychology in the light of assumptions about human nature.
- 18. *Demonstrate* understanding of the philosophical ideas from which the discipline of psychology arose.
- 4. Display significant figures within each system and describe their contributions.

UNIT I:

Science and Psychology; Associationism: Only British empiricism to be covered; Structuralism: Wundt and Titchener; Act Psychology: Brentano.

UNIT II:

Classical Behaviourism: Watson; Overview of Neo-behaviourism.

UNIT III:

Psychodynamics (an overview): Classical psychoanalysis of Freud, Neo-Freudians (an overview).

UNIT IV:

Indigenous Indian thought and traditions; Nature of consciousness, mind, self and mental functions as understood in Samkhya, Yoga, Vedanta.

Level: SEMESTER-4
Paper Code: PSY - 402

Title of Paper: PSYCHOLOGICAL RESEARCH

Marks: 75

COURSE OUTCOMES

19. Define and describe research and its goals.

- 20. Explain paradigms of research and their ontological and epistemological assumptions.
- 21. *Demonstrate* skills for formulation of research questions with respect to disciplinary and social relevance.
- 22. Formulate research problems and testable hypothesis.
- 5. Practice ethical principles involved in research.
- 6. Follow statistical techniques involved in research.
- 7. Modify research questions to suit the disciplinary and societal needs.
- 8. Display skills for using SPSS for statistical analysis.

UNIT I: BASICS OF RESEARCH IN PSYCHOLOGY:

What is Psychological Research? The Goals of Psychological Research, Paradigms of Research, Principles of Good Research, Ethics in Psychological Research.

Research Tradition: Types and steps of research, formulating a problem & developing a testable research question / research hypothesis.

UNIT II: SAMPLING:

Population. Probability & Non probability sampling methods

UNIT III: METHODS OF DATA COLLECTION:

Case study, Observation, Interview & Focus group discussion, Survey, Use of Secondary Data.

UNIT IV: PARAMETRIC AND NON PARAMETRIC STATISTICS:

Parametric Statistics: t test, ANOVA (one way); Introduction to Distribution-free Nonparametric Tests; Comparison with Parametric Tests; Uses and Applications of Nonparametric Tests: Chisqaure test and Mann Whitney U test.

Introduction to SPSS: Uses of SPSS in Statistics and Research.

Level: SEMESTER-4
Paper Code: PSY - 403

Title of Paper: Approaches to Personality

Marks: 75

COURSE OUTCOMES

- 23. Define and describe various approaches to personality in psychology.
- 24. Explain the key differences between approaches to personality.
- 25. Demonstrate understanding of key concepts in each approach to psychology.
- 4. Follow the ideas of major thinkers of personality theories in psychology.
- 5. Display awareness about important differences and similarities across different approaches to personality.

UNIT I: TRAIT AND TYPE THEORIES:

Big Five Factor Theory of Personality, Need Theory of Murray, Jung's Theory, Eysenck's Theory.

UNIT II: PSYCHOANALYTIC THEORIES:

Classical Freudian Perspective, Neo-Psycho Analytical Approach-Horney, Adler, Sullivan, Psychoanalytic Object Relation-Fairburn, Klein, Kohut, Attachment Perspective Winnicoat.

UNIT III: COGNITIVE, BEHAVIOURAL AND SOCIAL LEARNING THEORIES:

Kelly Personal Construct Theory, Skinner Theory of Operant Conditioning, Bandura Observational Learning and Social Cognitive Theory, Mischel Social Cognitive Theory.

UNIT IV: HUMANISTIC THEORIES:

Maslow Hierarchy of Need, Rogers Theory of Self, Ryan and Deci Self Determination Theory

- Hall, C.S. and Lindzey, C.T. (1985). Theories of Personality, 3rd Edition. Wile Eastern Ltd.

- Schultz and Schultz (2005). Theories of Personality, Wads worth, Cengage Learning.

Practical: (one practical and one fieldwork) Any one

practical from the following given below:

- Case study of an atypical individual.
- 16 PF
- Self-Concept
- NEO-Five
- Word Association Test

Field work: some illustrative topics (on any one topic):

- Examining the issues of old age by interviewing an elderly individual.
- O Evaluating quality of service in old-age homes.
- O Identifying the challenges faced by people with disabilities through secondary data analysis.
- Interviewing a nursery teacher for understanding the issues encountered in taking care of children.

Level: Semester 5

Title of Paper: PSYCHOLOGICAL TESTING AND ASSESSMENT

Marks: 75

COURSE OUTCOMES

- 26. *Describe* the need for psychological assessment and testing.
- 27. Explain errors of measurement.
- 28. Demonstrate an understanding of types of psychological tests.
- 4. Follow the steps involved in test construction.
- 5. Display an understanding of need based assessments.

UNIT I: INTRODUCTION TO ASSESSMENT:

Assessment: Concept and Need. Distinction between Assessment and Measurement. Errors in Measurement: Examiner Variables, Testee Variables, Situational Variables. Types of Assessment.

UNIT II: PSYCHOLOGICAL TEST:

Definition and uses of Psychological Test. Brief History of Psychological Testing.

Type of Tests: (Administration) Individual vs. Group, Speed vs. Power.

Type of Tests: (Content) Verbal vs. Performance, Culture Fair, Objective vs. Projective.

UNIT III: CHARACTERISTICS OF PSYCHOLOGICAL TEST: Reliability:

Concept and Internal Consistency.

Methods of determining Reliability: Test-Retest, Cronbach Alpha& Split Half. Validity: Concept and Types.

Factors influencing Reliability and Validity.

UNIT IV: TEST CONSTRUCTION

Item Writing and Pretesting. Item Analysis and Test Administration. Standardization: Meaning, Norms Development & Types of Norms. Self-Administering Scales: Rating Scales and Types.

LEVEL : SEMESTER-5

PAPER CODE : PSY-502

TITLE OF PAPER : ABNORMAL PSYCHOLOGY

MARKS: 75

COURSE OUTCOMES

- 29. Define and describe concepts of normality and abnormality.
- 30. Explain causes of abnormality.
- 31. Demonstrate models of abnormality
- 4. Assess signs and symptoms of psychological disorders.
- 5. Follow the classification of disorders ICD 10 and DSM 5.

UNIT-I: CLASSIFICATION & MODEL:

Concept and criteria of abnormal Behavior.

Classification- ICD-10, DSM5.

Biological and Sociological models.

Psychodynamic, Behavioral & Humanistic models.

UNIT -II: CAUSES OF ABNORMAL BEHAVIOR:

Biological causes. Psychological causes. Social causes.

Stress- Sources and Coping.

UNIT-III: STRESS AND ANXIETY DISORDER:

Stress Disorders: PTSD and Psycho-physiological Disorder (any two).

Anxiety Disorder: Phobia, obsessive and Compulsive Disorder.

Somatoform Disorder: Conversion Disorder.

Dissociative Disorder: Amnesia and Dissociated Identity Disorder.

UNIT-IV: PSYCHOTIC AND DEVELOPMENT DISORDER: Schizophrenia.

Mood disorder: Major Depressive Disorder, Bipolar Disorder.

Mental Retardation: Autism.

Personality Disorder (any two).

LEVEL : SEMESTER-5

PAPER CODE : PSY-503

TITLE OF PAPER : EFFECTIVE COMMUNICATION

MARKS: 75

COURSE OUTCOMES

- 32. Describe the value of communication in life.
- 33. Explain important aspects involved in communication.
- 34. Demonstrate an understanding of verbal and non-verbal communication.
- 35. Practice communication skills for effective communication.
- 36. Follow verbal and non verbal communication skills.
- 37. Display skills involved in effective communication.

UNIT-I: PROCESS OF COMMUNICATION:

Meaning, Components of Human Communication. Models of Communication: Linear and Interactive. Types of Communication: Verbal and Non-Verbal. Importance and Misconceptions of Communication.

UNIT II: INTERPERSONAL COMMUNICATION SKILLS:

Stages of Interpersonal Communication. Impression Formation, Attribution and barriers of accurate Perception. Barriers to Effective Listening. Improving Listening and Responding Skills.

UNIT III: VERBAL AND NON VERBAL COMMUNICATION:

Words and their functions. Word Barriers and using words to establish supportive relationships. Functions and types of nonverbal Communication. Interpreting and improving Nonverbal Communication.

UNIT IV: IMPROVING INTERPERSONAL RELATIONSHIP:

Relationship Needs, Development of Relationship and Quality of Relationship.

Conflict Management Styles and Skills. Family Communication System and Skills.

Making Friends, Skills of Maintaining and Repair of Friendships.

Books Recommended:

- 1. Adler, R.B. and Rodman, G. (1997). Understanding Human Communication. 6th edition, Harcourt Brace CollegePublishers
- 2. Beebe, S.A., Beebe, S.J. and Redmond (1996). Interpersonal Communication. Allan and Bacon.

- 5. Scott, B. (2008). The Skills of Communicating. Jaico PublishingHouse.

LEVEL : SEMESTER-5
PAPER CODE : PSY-504

TITLE OF PAPER : BIOPSYCHOLOGY

MARKS: 75

COURSE OUTCOMES

- 38. Define and describe biological bases of experience and behaviour.
- 39. Explain the structure and functions of nervous system with respect to human behaviour.
- 40. Demonstrate understanding of endocrine system in relation to human behaviour.
- 4. Display understanding of human behaviour as a function of mind-body relationship.

UNIT I: INTRODUCTION TO BIOPSYCHOLOGY:

Nature and scope; Methods and ethics in biopsychology; Divisions of biopsychology.

UNIT II: THE FUNCTIONING BRAIN:

Structure and functions of neurons; Neural conduction and synaptic transmission.

UNIT III: ORGANIZATION OF NERVOUS SYSTEM:

CNS & PNS: Structure and functions. Functional abnormalities of neurotransmitters: dopamine and serotonin hypothesis. Neuroplasticity of Brain (neural degeneration, neural regeneration, and neural reorganization).

UNIT IV: NEUROENDOCRINE SYSTEM:

Structure, functions and abnormalities of major glands: Thyroid, Adrenal, Gonads, Pituitary, Pancreas and Pineal

- Pinel, J. P. J. (2011). Biopsychology, 8th Edition. Pearson Education, New Delhi.
- Carlson, N. R. (2009) Foundations of Physiological Psychology, 6th Edition. Pearson Education,
 New Delhi.

Breedlove, S. M., Rosenzweig, M. R., & Watson, N. V. (2007) Biological Psychology: An introduction to behavioral, cognitive, and clinical neuroscience, 5th Edition. Sinauer Associates, Inc., Sunderland, Massachusetts. Practical:

Any three practical based on following topics:

- Bender Visual Motor Gestalt Test
- Any Neuropsychological Battery
- Beck Depression Inventory
- Sinha Anxiety Scale
- Stress Scale
- Y-BOCS
- Childhood Autism Rating Scale (CARS)
- Understanding the problems faced by children suffering from neurological disorders.

LEVEL : SEMESTER-6

PAPER CODE : PSY-601

TITLE OF PAPER : ASSESSMENT OF PERSONALITY & MENTAL ABILITY

MARKS: 75

COURSE OUTCOMES

- 41. Define and describe ethical issues in psychological testing.
- 42. Explain various types of tests and their relevance in measurement of human attributes.
- 43. Demonstrate understanding of Personality and intelligence assessment.
- 4. Assess and formulate goals/need for testing.
- 5. Practice skills required for testing of psychological attributes.
- 6. Display an ethical and context sensitive understanding of testing and assessment.

UNIT I: INTRODUCTION TO PERSONALITY ASSESSMENT:

History of Personality Assessment.

Ethical Issues in Personality Assessment. Types of

Personality Assessment.

UNIT II: PSYCHOMETRIC ASSESSMENT OF PERSONALITY:

Basic Techniques of Personality Assessment: MMPI, 16 PF, EPPS

UNIT III: PROJECTIVE TECHNIQES OF PERSONALITY ASSESSMENT:

Projective tests: TAT, Rorschach Inkblot Test.

Sentence Completion Test, Picture Frustration and Word Association Test. Assessment of

Interest and Values: Strong Vocational Interest Blank.

UNIT IV: ASSESSMENT OF MENTAL ABILITY:

Stanford Binet V-edition, Wechsler Scales-Verbal and Performance.

Bhatia Battery and Standard Progressive Matrices.

Assessment of Special Ability: DAT, Minnesota test of Clerical Aptitude, Career Maturity Scale.

Achievement tests: Standardized and Teacher made Achievement tests.

Books Recommended:

LEVEL : SEMESTER-6
PAPER CODE : PSY-602

TITLE OF PAPER : COUNSELLING PSYCHOLOGY

MARKS: 75

COURSE OUTCOMES

- 44. Define and describe counselling process.
- 45. Explain the goals and ethical principles of counselling.
- 46. Demonstrate techniques of counselling.
- 4. Assess and formulate counselling stages and goals.
- 5. Practice effective listening skills.
- 6. Follow the methods and techniques of counselling.
- 7. Modify counselling goals according to the needs of the person being counselled.
- 8. Display context sensitive and socially responsible understanding of counselling.

UNIT I: INTRODUCTION:

Nature and Goals of Counselling, Ethical issues in Counselling. The Effective Counsellor: Personality Characteristics.

UNIT II: COUNSELLING PROCESS:

Counselling Process: Building Counselling Relationships; Basic Counselling Skills.

UNIT III: TECHNIQUES OF COUNSELLING:

Psychoanalytic techniques; Humanistic techniques; Behavioral techniques; Cognitive techniques; Indian techniques: Yoga and Meditation **UNIT IV: COUNSELLING APPLICATIONS:**

Child Counselling; Family Counselling; Career Counselling; Crisis Intervention: suicide, grief, and sexual abuse.

Books Recommended:
